RESPONSE TO AMENDMENT

Drawings

The drawings were received on September 23, 2005. These drawings are acceptable.

Allowable Subject Matter

Claims 2-13 and 21-28 are allowed.

The following is an examiner's statement of reasons for allowance:

With respect to claim 2, prior art fails to teach or reasonably suggest a sensor comprising an imaging structure located completely in a hole which extends through an insulating jacket, in addition to the other limitations of the claim.

With respect to claim 4, prior art fails to teach or reasonably suggest, alone or in combination, a sensor comprising imaging structure located in a hole which longitudinally extends through an insulating jacket, wherein the imaging structure includes a wiring substrate connected to an imager, in addition to the other limitations of the claim.

Claims not specifically addressed are allowable due to their dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should

preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Ingham (US 6,204,594) discloses a sensor comprising an insulating jacket (130), an outer shell (110) that surrounds the insulating jacket and an imaging structure (105) located completely in a hole. Ingham discloses the hole extending through the outer shell and not through the insulating jacket.
